SELLS-FLOTO CIRCUS IS IN TOWN TODAY

The big circus, one of the world's greatest, with lions, tigers, bears, elephants, and every kind of wild beast and clown, etc. is in town today and the big excitement is on. Thousands of people are crowding in as we go to press and between the circus and the big second annual Blairmore Elks' Carnival the day will be the biggest far in Blairmore's history.

The kiddies of the town are all ready to meet the Elks at the school grounds at 1 o'clock, when six hundred of them will be forced into procession to parade to the big circus tent to be treated to this major show programme, the guests of the Elks. This procession will be in charge of full-blooded circus clowns and will be headed by the clown's special band.

At the circus a special band of men have been assigned the task of looking after the kiddies, so that parents do not need to worry one iota.

The Elks have always been known for the good things they accomplish, but in undertaking to entertain the six hundred kiddies of Blairmore to the treat of a lifetime and a show well worth while, that organization has not only endeared itself to the kiddies, but has won a high spot in the admiration of the parents and public. We doubt if a similar undertaking has ever before been attempted in Canada. Coupled with the above treat, each kiddie will receive a flag and parcel.

The Carnival will no doubt benefit through the presence of the circus on their opening day. Thousands of people, who were attracted here by the circus, will visit the carnival to complete their day's outing. Here they will find one great live of life. Thirteen booths will be in operation, including coconut shies, Aunt Sally, various games, etc., etc., etc., and a small round hole behind the ear might have been inflicted by a bullet.

The arena has been very tastefully decorated for the occasion and with specially arranged lights will be most attractive. Near the main entrance is located the Canadian freaks, chief amongst which is a Shetland pony, part horse and part elk—the horse. This queer animal has been under the care of Count Valentino Rinaldi for several days, and he has succeeded in taking the kick out of him, so don't be scared. The animals are of medium proportions with about seventeen points and quite attractive.

Tickets for the pony are going like hot cakes and the big draw will take place on Saturday night. Other freaks will be present, but the Elks feel it would not be well to make any special mention of them at this time. The dancing pavilion will be the principal attraction for the younger folks. A splendid sectional hardwood floor has been placed in the centre of the arena, size 45 by 55 feet. This floor has been built in eight sections to set on a solid base. The sections can be removed at any time and placed over the rafters of the building.

The music for the dance will be furnished by the Beebe family, augmented by three local artists. This orchestra will be under the direction of Frank A. Beebe, director of music of the Regina Theatre, and will include Mrs. Beebe Burr, pianist of the Detroit Mendelssohn symphony orchestra and Bill Beebe Burr, banjoist of the Detroit Elks' jazz band. The newly-formed West Canadian Band will be in attendance this evening for a while.

Come along this afternoon and night and stay with it till the grand finale on Saturday at 12 p.m. Bring your whole household, excepting the dogs and cats, and make the carnival your headquarters.

Dr. J. Olivier was a motor visitor to Calgary during the week.

WATER AND LIGHT CONSUMERS TO PAY UP

The regular meeting of the town council on Monday night was attended by Mayor Farmer, Councillors Gillin, Patterson, Morgan, Serron, Ferguson and Hayes.

The minutes of previous meeting were read and approved and a number of accounts were passed for payment.

Reports were submitted by the police and electrician. This latter report showed that there were quite a number of water and light consumers who were not paying up and the following motion was passed unanimously:

Gillis-Morgan—That all persons in arrears to the Town of Blairmore for water or light be cut off (if owner of property against which such rates are levied) immediately after six months' arrears, and if tenants of such property immediately after three months' arrears.

FRANK KOVACH IS KILLED NEAR PASSBURG

Joe Kovach, of Passburg, while on his way to work at Bellevue mine, was shocked on the early morning of Friday last to find the mangled remains of his brother, Frank, near the C.P.R. tracks almost directly in front of the family home.

As it once notified the authorities, who accompanied by Dr. J. Olivier, of Blairmore, were quickly on the scene. The body was found to be practically stripped of clothing and mangled almost beyond recognition. The remains were gathered together and conveyed to Blairmore, where upon the recommendation of Dr. Olivier as coroner, a post mortem examination of the head was made in order to ascertain as to whether or not a small round hole behind the ear might have been inflicted by a bullet.

On account of the post mortem, an inquest was considered necessary and the following jury was impanelled: L. L. Morgan, foreman; C. Shaw, W. L. Evans, W. J. Bartlett, H. C. James and D. Lewis.

The jury viewed the remains at the Blairmore undertaking parlour on Friday afternoon, and the inquest was adjourned till this morning at 10 o'clock, when the examination of witnesses proceeded at the court house.

The remains were laid to rest in the Passburg cemetery on Sunday afternoon.

Frank was about 24 years of age and practically a native of this section. He had been up The Pass during the afternoon and evening and is believed to have boarded the night train at Hillcrest and was killed in attempting to jump off the train while fast moving by his home.

Frank, with a couple of chums, returned but a week previous from the Pacific coast.

NATIVE SONS OF CANADA

In advice from the organizer, Mr. Peter D. S. Cramer, Calgary, we learn that the new Blairmore branch of the Native Sons of Canada will be organized on Friday night of next week.

An open meeting will be held prior to the regular institution, at which intending members will be given an opportunity to hand in their applications and fees.

All charter applicants are urged to be on hand on Friday, the 13th. The place and hour of meeting will be announced later.

George Tonks passed the recent Fortnate Conservatory of Music examination for the Introductory grade, violin, with honors.

LOCAL SCHOOL BOARD CONSIDERS RESIGNATIONS AND APPOINTMENTS

The regular monthly meeting of the Blairmore Board of School Trustees was held in the secretary's office on Friday night last, with Chairman Chappell and members Wheatley, Beebe, Hamilton and Pinkney and Secretary Na, for present.

The minutes of previous regular and special meetings were approved and matter of staff for the coming year was given consideration.

Resignations of Mrs. Mooney, Miss Lyndon and Mr. Rothney were read and upon motion accepted. Mr. Rothney stated that he had accepted the principalship of a private school. In order to get action in connection with the high school, the secretary was instructed to write to all pupils or Grades IX, X, XI, and XII, asking them to hand in their examination results to the secretary, same to be returned as soon as record was taken of them.

Capt. W. A. Beebe was appointed deputy chairman in the absence of Mr. Chappell, who expected to be away a few weeks.

Janitor Warner was authorized to purchase supplies necessary for cleaning the main and ward schools.

Fifteen applications for positions on the teaching staff were read by the secretary and the following choices were made:

\$5,000.00 PRIZE

Prior to the election held October 23, 1925, The Family Herald and Weekly Star conducted a most interesting contest in which generous cash prizes were given to readers who succeeded in forecasting the correct or nearest to correct number of votes polled in the whole of Canada. Mr. Andrew Williamson, 659 Sixth Avenue East, Prince Albert, Sask., came within three of the correct figures and won \$2,500.00. Mrs. E. Ramsay, 150 55th Avenue East, Vancouver, was next and won \$1,000. So popular was this contest that The Family Herald and Weekly Star, in conjunction with The Blairmore Enterprise, has arranged another for the coming general elections. The prize list totals Five Thousand Dollars. Further particulars will be found elsewhere in this issue.

Primary—Mrs. Stebbings. Second choice, Mrs. Ketley. Salary \$1150.
Grade III—Mrs. C. E. Fleming. Salary \$1100.

Grade V—Miss Sarah McVey, with second, third and fourth choices as follows: Miss Benvenuto Pezzi, Blairmore; Miss Cox, Fincher Creek; Miss Lynch-Stanton, Lundbreck. Salary \$1100.

Only two of last year's staff had officially notified the board of their intention of remaining on the staff, namely: Miss Mildred McDonald and Miss Katherine Crystal.

Tolerance

Some years ago that master craftsman among movie picture directors, D. W. Griffith, conceived and produced a great spectacular film play under the title "Intolerance." Like other Griffith productions it was not only a wonderful and entertaining picture, but it sought to teach a great lesson. It depicted in a convincing manner the wrongs inflicted upon humanity at different stages of the world's history as a result of the intolerant views held by those in power for the time being.

Unquestionably, with the growth of education and a more widespread enlightenment of people, there is a lessening of bigotry and a larger degree of tolerance in the world today than ever before in its history, and it is a matter of rejoicing to know this spirit is developing. Nevertheless, there is plenty of room for a still greater development of this spirit not only in international relations, but within the bounds of each individual nation.

With another general election pending in Canada it is perhaps timely to urge the necessity for the display of a more tolerant spirit and attitude in matters political. As individuals we may differ on points of constitutional law, but that is no reason why one person or group should denounce those who do not see eye to eye with them as disloyal either to Canada or the Empire. East and West may hold opposite opinions on the subject of the tariff, and both be perfectly honest and sincere in their views, but such differences of opinion surely provides no reason why the West should denounce the East as desirous of bleeding the West white, or for the East to accuse the West as selfish and ready to ruin all Eastern industry. Unity of opinion on such a controversial question is impossible, but it is possible that there be, and there should be, a tolerant attitude and a respect for each other's views.

A spirit of tolerance should characterize the adherents of every religious denomination or sect, yet all too frequently this reverence is true and the narrowest bigotry and bitter intolerance is displayed. In this, however, it is pleasant to note that the old racial and religious antagonisms and intolerance which for so many years in our past history disgraced and disrupted Canada, have largely passed away. Today in our own country as well as elsewhere danger seems to lie in the words warfare between the Fundamentalists and the Modernists. By all means let there be full discussion and debate, but as with the toll truth be disclosed and established, but in it all let there be charity and tolerance.

It is well to remember that intolerance and bigotry are by no means confined to religion and politics. As Dr. Frank Glenn, head of the University of Wisconsin, and former editor of The Century Magazine, recently pointed out, there are bigots of patriotism, bigots of education, bigots of science, bigots of business, bigots of journalism, bigots of medicine, bigots of theology, bigots of reform. Each and every one of them is dangerous, and every one of them doing real damage to the cause of truth.

There is a very real need still apparent for a constant preaching of the gospel of tolerance; a very real need for combating the still all too prevalent tendency on the part of many people to adopt an intolerant attitude towards all people and all questions with whom or which they are not in agreement. This "I alone am right, and you are wrong and must therefore be suppressed" attitude is the cause of more heart-burnings and community quarrels than almost any one other thing in our present-day civilization.

Intolerance, nothing else, has split many a village and small town into factions not only to the detriment of each and every individual, but to such an extent that all community spirit and enterprise has been killed. And, after all, it is the most futile and non-sensical of human actions. On the other hand, respect for other people's opinions, the encouragement of a spirit of charity, makes for peace, happiness and contentment in the home, for helpful co-operation in community life and effort, and for strength and unity in the nation. Intolerance leads to the suppression of truth, but truth cannot be suppressed. It is mighty and will prevail, and all that intolerance in thought and action can accomplish is to create, if will and discord and thus retard the onward march of progress and achievement.

When the young man courts a
negress he thinks his fortune is made.

Western Fisheries

Big Shipments of Fish From Lakes of Northern Alberta

The fishing season opens again on August 1st on Lesser Slave Lake and Lake La Biche. There is approximately 100,000 pounds of white fish to be shipped during the season from Lake La Biche and over half a million pounds from Lesser Slave Lake as well as a considerable quantity of jackfish and pickerel from both. A considerable quantity is to be frozen at Edmonton and at the present time there are about four cars of fish per week being shipped from the smaller lakes in the vicinity of this point. A movement is on foot to operate fisheries on Lake Athabasca, the larger part of the catch on which will be frozen at Waterways and shipped.

The early day that falls into the boating hours milk pitcher is reasonably sure to find a watery grave.

"I miss my Swiss," sighed the 240-pound lady, whose diet included the exclusion of all forms of cheese.

Keep Minard's Liniment handy

Assisted Immigration

8,482 Immigrants From Britain During First Five Months of This Year
According to report from London the Dominion's secretary reports that the sailings for Canada under each of the assisted passage schemes during the first five months of the present year are as follows: Government scheme: Nominated persons, 3,237; householder workers, 1,094; juveniles, 14, 10 31 years, 3,611; 3,000 family scheme, 5,601; total, 8,482. Minor schemes: Society of Overseas Settlement of British Women, 58; British Dominion's Emigration Society, 210; grand total, 8,492.

Marked activity in the movement of settlers from the United States to Canada is noted by the department of immigration and colonization. In the month of June the Canadian Government agency at Fargo, North Dakota, was instrumental in moving to Canada 195 settlers with their wives and families represent a population of 215 people, and brought with them cash and effects valued at \$45,559. These newcomers were almost entirely from North Dakota and Minnesota and were destined for points in the prairie provinces and British Columbia.

Common Sound Explained

Puffing of Railway Engine Regulated By Driving Wheels

The puffing of a railway engine is a common enough sound, but few people know by what it is regulated. Actually, the number of puffs made by a locomotive in the course of a journey depends on the circumference of its driving wheels.

No matter what the speed of the train, only 360, the engine will give four puffs for every complete turn of the driving wheels. The wheels may vary in circumference, but the average is 20 feet.

With average driving wheels and a speed of fifty miles an hour, a locomotive will give 800 puffs a minute, or 52,800 puffs an hour, the driving wheels performing 13,200 complete revolutions in the sixty minutes. Toronto Telegram.

CHOLERA INFANTUM

Cholera infantum is one of the fatal ailments of childhood. It is a trouble that comes on suddenly, especially during the summer months, and its prompt action is taken the little one may soon be beyond aid. It is a disease of the bowels and stomach, and is caused by the action of bacteria. They are an absolute safe medicine, being guaranteed to cure without harm, and are not one of those harmful drugs. They can not possibly do harm—they always do good. The tablets are sold by all medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

Snapshots Of Moose

Shooting moose with a kodak is becoming a popular diversion. M. U. Bates, who runs a chain of sporting camps in the vicinity of Metegama, Ontario, states that moose are so plentiful this year that he can guarantee photographs of moose almost daily within a few minutes paddle off any of the camps.

Poultrymen!

Can YOU answer these 5 questions?

How soon after hatching should chicks be fed?

What would you feed laying pullets to stop them "going off their legs"?

What feed makes chicks mature rapidly?

Why should you give little meat and bone feed to give breeding stock?

What feeds contain the vitamins that prevent chicks from having rickets?

The best answers to these questions are many words that you can't get anywhere else. The Department of Agriculture, Ottawa, has prepared a booklet, "Feeds and Feeding," which reveals in simple language the secrets of successful raising. Tells the best and most economical diets for fattening, a high egg yield, rapid growth, etc. Saves you money in feed, and brings you better profits. Remember, you only have to write and the Government will send it absolutely FREE.

Write for these other free booklets, too

Wonder Canyon Of Rockies

Trapper and Explorer Finds Gorge That Rivals the Colorado Canyon
A deep mountain canyon, carved at most perpendicularly through a high rocky ridge, a canyon so deep that it is said to rival the world-famous Colorado canyon, has been discovered by Albert Mor, trapper and explorer, who has returned from a long journey through the little-known wilderness of the Copper River country in British Columbia.

This spring Mor attempted to penetrate the country of the south fork of the Copper River, a country that has aroused his curiosity. Even though he did not reach his objective, he discovered the canyon and he believes that this find amply rewarded him.

The canyon is from 12 to 15 miles long and from three to four thousand feet deep. It is a paradise for mountain goat, Morcer claims. The canyons he says, is so rough that wolves and other enemies of the goat cannot penetrate its fastnesses. He saw goats climbing about on poles of rocks where a slip would have meant a stroke down of thousands of feet. The south fork of the Copper River is described as a great grizzly bear country and would be a favored hunting spot if more accessible.

Drives Out Rheumatism Subdues Lumbago

Brings Ease and Comfort to the Sufferer at Once

NERVINE

A King Over Pain

Those who seek permanent relief from the grinding pain of Rheumatism and Lumbago should read the letter of F. C. Norman, from Georgetown, who writes:

"I was fairly crippled with aching joints, and I tried every remedy I could find, but I had to give up. I was so miserable that I had to give up my work."

"If you need a reliable, strong, penetrating pain remedy, you can do so, on get a little bottle of Nervine today; it will make you well quickly."

Grasshopper Plague In Russia

State of Seizure Proclaimed in War on Locusts

To protect Russia from the spreading grasshopper plague, the district of Stavropol has proclaimed a state of locusts, and has forbidden the export of locusts, who are to be held responsible for wasting a successful war on the insects which are endangering the crops. Cavalry and aeroplanes have been mobilized to spread clouds of poison, regulated from Moscow, while the entire peasant population is enlisted in anti-locust formation, under orders of self-elected officers, to rush in the harvest before grasshoppers destroy the products.

Ashma Can be Cured. Its suffering is as needless as it is terrible to endure. After its many years of relief from the most stubborn cases no sufferer can doubt the perfect effectiveness of Dr. J. B. Rogers' Asthma Remedy. Comfort of body and peace of mind return with its use and nights of sound sleep come back for good. Ask your druggist; he can supply you.

Prolongs State Of War

Occupied Area in Germany is a Thorn In The Flesh

His continued occupation of large areas of the Rhineland, the allies are protesting the state of war, Chancellor Wilhelm Marx declares. The chancellor said he would consider his task in September to carry on negotiations for Germany's entry to the League of Nations.

Boosting Home Products

Great Britain imported more than 200,000,000 pounds of canned fruits and vegetables last year, so the National Food Canning Council is launching a campaign for boosting home products. British unions plan to trip their output this year.

Anyway, the man who has no faith in himself is able to realize his own weakness.

Opportunity is an angel in disguise that some people suspect of being a gold-brick peddler.

Paring a corn's both risky and ineffective. It is much better to use Holloway's Corn Remover and eradicate them entirely.

Just a Boy

"Tom, would it be right to say you ain't been to the theatre this month?"

"No, ma'am; I go twice a week."

WHEN USING
WILSON'S FLY PADS
READ DIRECTIONS CAREFULLY AND FOLLOW THEM EXACTLY

There is only one way to kill all the Flies

This is it—Darken the room as much as possible, close the windows, raise one of the blinds where the sun shines in, about eight inches, place as many Wilson's Fly Pads as possible on plates properly wetted with water but not flooded on the window ledge where the light is strong, leave the room closed for two or three hours, then sweep up the flies and burn them. The directions below.

Put the plates away out of the reach of children until required in another room.

The right way to use Wilson's Fly Pads

Public Health Improved

Improved Habits Bring Better Health To British People

The health of Great Britain is growing steadily better, according to Sir George Newman, chief medical officer of the ministry of health, in an address here.

"The weekend habit of enjoyment of the seaside and sea bathing, cheap excursions, extended travel, annual holidays and what is called the emancipation of women are having an enormous effect on personal and public health," he declared.

"Other things making for improvement in public health, Sir George noted, were an increase in sobriety, more sensible eating, more windows, more tooth brushes and greater simplicity in dress."

Complete in itself, Mother Graves' Vernal Extremist does not require the assistance of any other medicine to make it effective. It does not fail to do its work.

Canada's Envious Position

Largest Trade Balance Per Capita Of Any Country in the World

Canada now has the largest favorable trade balance per capita of any country in the world. For the fiscal year 1926 Canada's favorable trade balance amounted to \$401,135,405, an increase over the previous year of \$116,705,249. At the end of March, 1926, Canada's favorable trade balance was almost entirely with the British empire, the amount for the empire being \$392,631,942 and for foreign countries only \$8,503,562. The unfavorable balance of trade with the United States amounting to \$123,970,464 was approximately compensated for by a favorable balance with other foreign countries.

Will Purchase Elevators

To serve pools in the province which are not at present served by the pool board has decided to build or buy at once elevators at thirty Alberta points. The volume of what handled is the basis upon which the selection of points has been made.

Big Farm Land Deal

One of the largest farm land deals of recent years in Central Alberta was consummated recently when the Kluantan stock farm, consisting of 960 acres about 13 miles from Camrose, was sold to Dr. H. G. Berry of Mt. Clemens, Michigan.

There is no hope for the man who refuses to let his friends lend him money.

DOMINIONS AS INDEPENDENT AS MOTHER COUNTRY

London.—The Labor party last week heard Right Hon. L. O. M. Amery, secretary of dominion affairs, answer a question regarding the constitutional difficulty in Canada to its satisfaction, and it feels that it expressed the attitude of every party on the house. In this manner J. H. Thomas, Labor member for Dorset, provoked a speech with which he opened a debate on dominion-constitutional relations in the House of Commons. Mr. Thomas said he wished to allow himself the opportunity because general elections were pending in Canada, and he desired to make clear to the world what Great Britain meant by self-government and also to emphasize that whatever advice Governor-General Byng gave during the parliamentary crisis in Canada was given of his own responsibility. "I declared the decision was given by the government," he said, "on the strength of the 'spot knowledge' he had and of the situation and stressed that there had been no interference from Downing Street."

The Labor member said that, "with more amusement than interest," he had read a suggestion in an American newspaper that, owing to the wicked action of the British Government, Canada should tear herself from the tyranny of Downing Street. "The paper had also suggested that the decision be handed over to the United States on the terms of cancelling Great Britain's war debt to that country, and Mr. Thomas held that to show how some people did not attempt to understand the meaning and meaning of the British Empire."

With reference to the Imperial conference, which Premier Baldwin announced in the commons, would meet on October 19, two weeks later than the date first set, Mr. Thomas expressed the hope that not only the representatives of governments, but also oppositions would be invited. They, he pointed out, party spirit would be eliminated and a greater continuity of policy would be secured.

Nothing in the nature of debate occurred on this part of Mr. Thomas' speech, but Lord Col. Amery, secretary for the dominions, in the course of a general reply, in behalf of the government, explained that the dominions were just as independent as the Mother Country. "The character of their independence was the same as the British, only qualified by self-imposed responsibilities of mutual loyalty and co-operation."

Gives Reason For Coal Strike

England Returned Too Soon to Gold Standard Says Beaverbrook

London.—Lord Beaverbrook, called recently on the White Star liner Mauretania for Canada via New York. In a long article printed over his signature in The Daily Express on the eve of his departure he declared the failure of the recent proposals was the same as the failure of the White Star line by the British shipping industries was due entirely to the British official policy of maintaining the gold standard. He intimated that the proposal to transfer £500,000 pounds from the British to the U. S. for the purchase of this line was opposed by the British financial authorities on the ground that it would depress the value of the pound in New York and hamper the present exchange conditions. "He also argued that the coal strike is a direct result of the too early return of the gold standard as this raised the cost of selling coal in foreign countries so that the cost of production at home had to be lowered in order to keep up the possibility of competition in the world market."

U. S. Starts Gold Movement

Premium On Canadian Dollar Market Export Profitable

New York.—A movement of gold from New York to Canada was started with a shipment of \$1,000,000 made by the J. Henry Schroeder Banking Corporation to the Bank of Montreal. "The shipment was made to represent purely in exchange transaction as the premium on Canadian dollars has risen to the point where the export of gold from this country is profitable. Canadian exchange is quoted as a premium of 10 cents above the one per cent, which is a shade above the gold shipping point."

The present strength in Canadian exchange is attributed directly to the heavy financing which has been done recently in the New York market in behalf of industries in Canada.

W. N. O. 1944

Loss in Florida Storms

Property Damage Is Estimated To Run into Millions

Jacksonville, Fla.—Reports of damage done by the storm that passed over as a crippled wire facilities were slowly restored. A message from Nassau via Miami fixed the damage there at \$6,000,000.

A message received by the Munson Line in New York from the steamer Munson, at Nassau, said that place was wrecked by the hurricane.

Mainly damage was principally to the Avocado pear crop. Palm Beach's playground suffered heavy damage in the loss of more than a score of yachts and small craft which went down when a pier gave way.

Extensive beach residential damage to light and power lines, disrupted telephone service, uprooted trees, washed out highways, wrecked beach concessions and damaged small pleasure craft. After a night without lights, the power service was restored. A rum running vessel was reported ashore several miles north of Orlando.

The storm took only two lives as it passed up the Florida coast, but it caused property damage estimated in the millions. For Palm Beach's loss was estimated at \$1,000,000, that of Stuart, Fla., at \$250,000, and Miami at \$100,000, in addition to damage to shipping, telegraph and telephone wires and crops at scores of places.

Complaint Against New Settlement Act

Union Members in British House Say Act Is Failure

London.—Complaints that the present settlement act is a failure, coupled with the suggestion that the act is unworkable, were made in parliament by Unionist members from Lancashire and Cheshire. The complainants assert that the greater part of the £9,000,000 which has been provided by the settlement act during the last three years has not been spent and under the present regulations it may no longer be available. They also declare that the clause providing for Dominion contributions is acting as a check upon immigration because of the conditions imposed by the various Dominions. They suggest that a portion of the fund provided by the British Government should be utilized without reference to the Dominions' contribution overseas.

They also declare that the clause providing for Dominion contributions is acting as a check upon immigration because of the conditions imposed by the various Dominions. They suggest that a portion of the fund provided by the British Government should be utilized without reference to the Dominions' contribution overseas.

Asks Canada's Co-operation

British Government Asks Aid in "War on Rum Runners"

London.—Canada will be asked by the British Government to co-operate to the fullest extent in the fulfilment of the agreement between Great Britain and the United States to facilitate the suppression of rum running. As a result of the visit of General Andrews, chief American prohibition officer, details of co-operation between British and American authorities in this connection have been arranged. Canada is to be asked to supply the main part of the agreement, which is directed toward the Bahamas from which a vast flood of the prohibited liquor has been pouring into the Southern States. An effort will be made, however, to prevent the shipment of the British flag by rum-runners who are not on British registry and it is believed that Canadian authorities will be able to help along the enforcement efforts in this direction.

French Kill Syrian Tribesmen

Many Prisoners Taken in Fighting Around Ghouta

Beirut, Syria.—Several hundred dissident tribesmen have been killed by the French and more than 300 prisoners taken in fighting around the oasis of Ghouta, according to a general staff communication. "The French statement charges that two aviators who were forced by engine trouble to land in the midst of their enemies were wounded and then fastened to their plane and buried."

Whittemore to Hang—Baltimore, Md.—Governor Albert C. Ritchie refused to commute to life imprisonment the death sentence of Richard Bruce Whittemore, gang leader and slayer of a Maryland policeman's guard. He will be hanged August 13.

Royal Tomb Violated—Orleans, France.—A party have violated the sepulchre of King Louis XI, at Clercy, carrying off precious golden and jeweled treasures, and religious relics to the value of more than \$100,000.

Has Alayed Fears Of British Authorities

Cannot Contract Foot and Mouth Disease From Meat Says Doctor

The Hague, Holland.—There is no danger of foot and mouth disease being contracted through the use of the meat of animals affected by the disease and killed during the quarantine period, according to Dr. Laurens, director of the Institute of State.

As a result of Dr. Laurens' experiments, Dr. Kien, minister of the Interior and agriculture, has asked the director of the Institute and Dr. Berger, director of veterinary service, to confer with the British authorities with a view to allaying the fears of the latter with regard to infection from animals affected by foot and mouth disease.

Wives Must Remain At Home

Australia Expects British Parliamentarians to Make Trip Alone

London.—Australia is not against wives. When the Australian cricket team sailed for Great Britain, the Australian cricket board of control put a ban on wives accompanying the members of the team.

And now the Australian branch of the Empire Parliamentary Association has advised British parliamentarians who are soon to visit Australia that they are not expected to be accompanied by their wives.

J. H. Thomas and several of the other members of parliament have refused to make the trip because their wives are barred.

SAYS NOTHING SUPPRESSED IN DUNCAN REPORT

Montreal.—The Montreal Star carries the following Ottawa dispatch: "In view of the discussion of the political platform and in the newspapers as to the Duncan report on investigation into the customs department and the conflicting allegations that are made, Inspector Walter Duncan, special investigating officer, was asked for a clarifying statement as to whether anything was suppressed and if so, what it was."

"I was detailed," he said, "to make an investigation into the administration of the customs service in Montreal and that district and I did so. I took papers and documents in the office of J. E. A. Hession, chief preventive officer of the district, and examined and examined on each office, I thought, were in position to throw light on the question. The evidence was taken and transcribed, submitted first an interim report and afterwards a fuller report. Both of these reports were produced before the committee of the house that investigated the customs department and were read into the record of the inquiry. Nothing they contained was suppressed or deleted, but the evidence, comprising 319 pages, upon which the reports were based, was not read into the record, although it was tabulated in the house. The exhibits were also tabulated."

"What I did not produce before the committee and what was not published was a memorandum book to a certain woman. The notes in the book were in shorthand. I had them extended."

Office Boy, N.S.—The trouble at the collector as a result of the United Mineworkers' members refusal to work with members of the One Big Union is spreading. In addition to No. 16, which has been tied up since Monday night, the Florence Colliery, Sidney Mines is closed down and the Princess is working with reduced force. It is feared that the struggle will become general.

Buy Blacut Plant—London, Ont.—The Canadian Blacut Company announces the outright purchase of the D. S. Perrin Company, limited, manufacturers of blacuts and confectionery.

More Highlanders for Canada

Scotland continues to pour of her best into the Dominion and especially the attraction seems to be the west. There is not a Canadian Pacific line that calls the Atlantic but brings its quota, and usually a pretty large quota, of bonnie Scots lasses and sturdy Scots laddies to Canada and they are all as welcome as the flowers in May. Here is a particularly bright

GOVERNMENT TO DECLARE WAR ON BOOTLEGGERS

Toronto.—The Dominion Government has entered the "fight to a finish" which has been declared against bootleggers following the death of 15 persons in Western Ontario presumably as the result of the flooding of that area with poisonous alcohol. The co-operation of the Federal authorities was promised in a telegram received here from the deputy minister of customs.

Hon. W. H. Price, acting attorney-general for Ontario and leader in the war against the illicit whiskey traffic, declared a special officer of the Royal Canadian Mounted Police was being sent here to consult with provincial officers in an effort to aid in the discovery of the point of origin of the death-dealing fluid.

It is indicated that the assistance of the Dominion Government is also to be sought in an effort to prevent a recurrence of the unprecedented liquor tragedy. As a result of the investigations of the past few days, it was unofficially stated that the Ontario Government would ask that federal legislation be passed compelling the registration of unnaturalized foreigners. It was intimated that the probe has shown the liquor traffic to be almost entirely in the hands of foreigners.

Philippines Import Wheat Flour

Read Is Taking Place Of Rice As Food

Manila, P.I.—Consumption of wheat flour in the Philippines has increased in the last few years. Figures of the bureau of commerce and industry show that although rice is the chief staple the Philippines are using bread as a supplementary food generally and in some cases as their principal article of diet. When importations last year were 16,000 tons as compared with 4,000 tons in 1921. Four-fifths came from the United States.

New Industry For Alaska

Department of Agriculture Trying to Raise Sugar Beets

Anchorage, Alaska.—An experiment in raising sugar beets will be made in Alaska.

The department of agriculture and the Alaska railroad will co-operate in the task. The experiment will be made in the Matanuska and Tanana valleys north of here. Cost of production and quality of product will largely determine the future of the venture.

Mine Trouble in Cape Breton

Office Boy, N.S.—The trouble at the collector as a result of the United Mineworkers' members refusal to work with members of the One Big Union is spreading. In addition to No. 16, which has been tied up since Monday night, the Florence Colliery, Sidney Mines is closed down and the Princess is working with reduced force. It is feared that the struggle will become general.

Buy Blacut Plant

London, Ont.—The Canadian Blacut Company announces the outright purchase of the D. S. Perrin Company, limited, manufacturers of blacuts and confectionery.

More Highlanders for Canada

looking group who arrived recently on the C.P. steamship Metagama. Men in the prime of life, pretty girls, young wives, one young fellow in the baby and daughter of a famous Highland regiment and others attired as places with all the paraphernalia and bagpipes thrown in. In a word, the very best class of settlers that this country can get—and the more we get of them the better for all of us.

Modified Services

Will Not Be Complete Suspension of Religious Services in Mexico

Mexico City.—The Archbishopric issued a statement declaring that the withdrawal of the priests from the churches on August 1, as announced in the recent pastoral letter, does not mean complete suspension of religious services.

The services suspended will be holy communion, confirmation, confession, consecration and some sacraments which require the intervention of priests. Services which can be continued without the intervention of priests are modified masses, marriages and baptisms.

It is also announced by the archbishop that during the cessation of the priests' activities a sincere act of repentance on the part of a Mexican Catholic will be considered equivalent to the confession necessary for death and marriage sacraments.

Re-Draft Petroleum Laws

Revise Rules Governing Oil Leases in Alberta

Edmonton.—Revised rules and regulations in respect to oil and gas leases in all parts of the province have been prepared by the Alberta Government, but will not be put into force for the time being. The re-drafting of the petroleum law in this regard was undertaken some months ago when the prospects for Alberta's entering into possession of her natural resources were bright. It was felt then to be highly desirable that a uniform procedure for leasing oil and gas rights in all classes of lands be provided and new regulations were drafted accordingly.

Belgium Will Pay Debts

Premier Declares No Request For Cancellation Will Be Made

Brussels.—Belgium is determined to meet all its financial obligations, despite the serious situation confronting its treasury. Premier Jaspar has declared.

Questioned as to the possibility of a request for cancellation of the debt of Belgium to the United States, he stated the Washington agreement and does not think of keeping her engagements, however heavy may be the charges to pay the exterior debt, which necessitates payments in dollars which will be paid by Belgium's treasury."

MANITOBA POOL FAVORS BUYING OF ELEVATORS

Brandon, Man.—Endorsement of the action of the board of directors in declining the offer of the United Grain Growers, Limited, to form a joint holding company to operate United Grain Growers' and Pool elevators and a resolution in favor of buying or leasing United Grain Growers' elevators in Manitoba were features of the annual meeting of delegates to the Manitoba Wheat Pool here.

These resolutions, passed with only four dissentients, followed upon a full discussion of the action of the report of the board of directors dealing with elevator policy. The failure of United Grain Growers, Limited, and the Alberta Pool, to agree with regard to the management of a joint elevator holding company was brought before the meeting and a telegram was read from R. O. German, secretary of the Alberta Pool, stating that following the breakdown of negotiations between the Alberta Pool and the United Grain Growers, the Pool had notified United Grain Growers of their readiness to purchase their elevators, in Alberta and had appointed a committee to carry on negotiations for this purpose.

Pool grain was handled at a cost of 1.28 cents per bushel this year, according to the interim financial statement prepared by the pool shareholders' auditors, Miller, McDonald and Company.

Increased C.P.R. Earnings

Montreal.—The statement of earnings and expenses of the Canadian Pacific Railway for the month of June, 1926, shows an increase in net profits of \$1,242,652.89 over the corresponding month last year, and for the six months ended June 30, 1926, an increase of \$4,159,941 over the first six months of 1925.

Durkin Gets 35 Years

Chicago.—Martin J. Durkin, shah gasser who killed Edwin Shanahan, a federal agent, was sentenced to thirty-five years in Joliet penitentiary after a motion for a new trial had been overruled. A jury had found the punishment.

RUM RUNNERS WILL BE SUBJECT TO INCOME TAX

Toronto.—A dispatch to the Globe from Windsor, Ontario, says:

"Liquor dealers who technically describe themselves as 'Exporters' were staggered after they had figured the full impact of the privy council's decision in the now famous Cecil Smith case, by terms of which Smith must pay to the Federal Government \$25,820 as tax upon his profits from liquor in 1920-21."

The ruling of the highest tribunal in the empire decided a test case filed by the Canadian Government to determine whether it was legal to tax profits made from liquor sales.

"According to local baristers, who have followed closely the progress of the case through various courts, another border cities 'exporter,' who is rated as worth more than an average millionaire, and whose operations were the most extensive of any along the border here, will be compelled to hand to the government approximately \$500,000 in income tax, representing his profits during the 1920-21 period. "According to a list of exporters, who are said to have made large sums, and who will be assessed by the government for a large share of their earnings—the names being on the list in the department of finance at Ottawa pending the outcome of the Smith case, the total will be far in excess of \$1,000,000."

Dr. Michael Clark Is Dead

Well-Known Western Parliamentarian

Calgary.—Dr. Michael Clark, publicist, orator, parliamentary debater and writer, died suddenly at his farm home at Oude after a brief illness. A few days ago he declined to speak at a Red Deer Liberal convention, because of his ill-health, but no person thought then that his condition was so serious. His death was caused by a heart attack. His wife pre-deceased him by only a few weeks.

Dr. Clark came to Canada in 1902. His first formation as a publicist was at the Alberta Liberal convention in Calgary immediately after the creation of the province in 1905. He came to the convention quite unknown and was one of the interesting incidents at the meeting. He was a candidate for the riding of Brandon in the first provincial election in 1905, but met defeat by a narrow majority. He was elected to the federal parliament for the riding of Red Deer in the year 1908. He was re-elected in 1911 and 1917. He took a very active part in the debate on reciprocity in the session of 1913 and in the discussion on the Borden naval legislation in 1912. He anticipated the unionist movement some time before the Unionist Government was formed, and gave up opposition to the Borden Government when war broke out in 1914. He was asked to become a member of the Unionist Government, but although supporting the move, asked to be excused. At the conclusion of the war, he joined the Liberal party in 1919 and was second in command of the Progressive party. In 1921 when the U.P.A. adopted as a policy economic group representation, he left the Progressive party. He accepted a Liberal nomination in Mackenzie, Sask., and was defeated.

Tour Broke Up Team

Seven Austrian Football Players Are Remaining in America

Vienna.—The American tour of the Austrian football team, the best players in the country has had a twist in the destination of the team.

"Seven players who cannot be replaced, have refused to renew their contracts because they have not engaged to go to America," the club manager announced last night. "That is the price we have to pay for their fine sporting feats."

Federal Nominations

Whitlock, A. H., who, along with W. S. Woodworth, represented Labor in the last house, was nominated to contest North Winnipeg constituency in the forthcoming federal election, at a meeting of the Independent Labor party here. He joined the party in 1915 and was second in command of the Progressive party. In 1921 when the U.P.A. adopted as a policy economic group representation, he left the Progressive party. He accepted a Liberal nomination in Mackenzie, Sask., and was defeated.

Mining Industry Bill Passed

London.—The House of Commons passed the third reading of the government's mining industry bill, which provides for the re-organization of the industry. The vote was 113 to 125.

CANADA'S GROWING DISLIKE

The following is copied from a recent issue of the New York Times and is from the pen of L. E. Mason, of Toronto:

"If the intention of Edwin L. James in writing 'Europe Scowls at Rich America' were to incite this feeling, he has produced an article admirably adapted to the purpose. Mr. James is a statesman, the situation, however, in naming merely Europe as the only part of the world cherishing a feeling of distaste for the United States. There is in Canada—what I beg to remind Mr. James is, locally, of the North American continent—a considerable and growing feeling of irritation over the denseness of the citizens of the Republic to the south of us as to their real cause of offense.

"Mr. James suggests that the European nations are suffering from an 'inferiority complex.' It is certainly true that the United States is even more obviously afflicted by a 'superiority complex,' for which there is absolutely no foundation.

"The United States is a comparatively young nation, but in Canada, which is also young, we feel that there is no excuse for the grocerisms and childish bragadocio with which Americans, as a people, offend not only Europe, but the whole civilized world.

"Probably in nothing do they more

CONVENTION ACT

A summary of the Migratory Birds Convention Act is given below. This is the law which is based upon the treaty with the United States. Any enquiry concerning this law may be addressed to the commissioner of the Canadian national parks, department of the interior, Ottawa.

Open seasons: both dates include—Saskatchewan: Ducks, geese, coots, wilsons or jack-snipe and the greater and lesser yellowlegs. September 15th to December 31st. Alberta: Ducks, geese, coots, wilsons or jack-snipe and the greater and lesser yellowlegs. September 15th to December 14th.

Closed seasons—There is a closed season in the provinces of Saskatchewan and Alberta on band-tailed pigeons, swans, wood duck, elder duck, cranes, curlew, willet, godwits, upland plover, avocets, dowitchers, oyster-catchers, phalaropes, stilts, surf-birds, turnstones, and all the shore-birds not provided with an open season in above schedule.

There is a closed season throughout the year on the following non-game birds: ducks, auks, bitterns, fulmars, gannets, grebes, gullinets, gulls, herons, jaegers, loons, murrelets, puffins, shearwaters and terns; and there is a closed season throughout the year on the following insectivorous birds: boblinks, catbirds, chickadees, cuckoos, flickers, flycatchers, grosbeaks, hummingbirds, kinglets, martins, meadowlarks, nighthawks or bull bats, nuthatches.

outrage Canadian feeling than in their attitude toward the great war.

Where we would expect shared silence we are confronted with vain boasts. We still feel our grief too deeply to waste our rebuke on a people capable of 'glorying in their shame.' So, wherever possible we simply avoid intercourse with those who seem to have lost all the high ideals of a true democracy.

owls, robins, shrikes, swallows, swifts, tansers, thrushes, vireos, warblers, waxwings, whip-poorwills, woodpeckers and wrens, and all other perching birds which feed entirely or chiefly on insects.

No person shall kill, hunt, capture, injure, take or molest migratory game birds during the closed season. Sale of these birds is forbidden.

The killing, capturing, taking, injuring or molesting of migratory insectivorous and migratory non-game birds is prohibited. The possession of legally taken migratory game birds is allowed in Alberta until March 31st following the open season, and in Saskatchewan until the last day of February following the open season.

Daily bag limits—Saskatchewan: Ducks and geese, 50 of all kinds in one day, but not exceeding 10 geese, and 200 of all kinds in a season but not in excess of 10 geese; coots, 25 in one day, and 150 in a season; greater and lesser yellowlegs, 15; wilson's snipe, 25. Alberta: Ducks, 30 in one day and not more than 200 in a season; geese, 15; coots, 25; greater and lesser yellowlegs, 15; wilson's snipe, 25.

Guns and appliances—The use of automatic (auto loading), sawed, or machine guns, or battery, or any gun, larger than number 10 gauge is prohibited, and the use of any aeroplane, power boat, sail boat or night light, and shooting from any horse-drawn or motor vehicle is forbidden.

The shooting of migratory game birds earlier than one hour before sunrise or later than one hour after sunset is prohibited.

Penalty—Every person who violates any provision of this act or any regulation shall, for each offence, be liable upon summary conviction to a fine of not more than three hundred dollars and not less than ten dollars, or to imprisonment for a term not exceeding six months, or to both fine and imprisonment.

BISHOP'S VALEDICTORY

Bishop's Court, Calgary, Alta., August 1, 1923.

To Members of the Church of England in Canada, in the Diocese of Calgary.

My Dear Church People:

It is with a feeling of deep sadness that I write this, my Valedictory, after thirty-nine years of very happy life among you.

For some time I have known that I could not depend upon my mental powers, and that I ought to give place to a younger man, since I am in my eighty-second year. On the other hand, it seemed hard to give up, when, in every part of the Diocese, there were friends waiting to give me a hearty welcome; bidding me go on, and making me realize that to resign meant for me the hardest wrench possible. I have, however, much to thank God for: and your ever loyal and loving devotion, shown through all my episcopate, cheer and encourage me when resigning, and make me feel that you may make the greatest claim upon my time and thought while I am here on earth, and that increasing prayer for you all will be a duty and a privilege.

I am under the greatest obligations to the Archbishop Hayes. He has been one of the truest and sincerest of friends, and fellow workers, who has rendered me invaluable service in my declining years.

I have no words with which to express my deep gratitude to those, who, in their kind thoughtfulness, have helped to provide for me and mine.

Finally, Brethren: "Whatever things are true; whatsoever things are honorable; whatsoever things are just; whatsoever things are pure; whatsoever things are lovely; whatsoever things are of good report; if there be any virtue, and if there be any praise, think on these things."

I am,

Faithfully and lovingly yours,

W. OYBRIAN PINKHAM,

Bishop.

LAWYER-SCIENTISTS TO TRACE RELATIONSHIP OF ROCKY MT. SHEEP SPECIES

WINNIEPEG, Aug. 4.—John M. Holworth, of Port Chester, N.Y., and Lee Parsons Davis, of New Rochelle, passed through Winnipeg the end of July, travelling west over Canadian National lines into the mountains at northern British Columbia for the purpose of tracing the family tree of the Rocky Mountain sheep. They will travel by pack train and canoe through a practically unexplored region to the headwaters of the Peace River and will be in the north until next October.

The expedition is being undertaken for the United States Biological Survey and Natural Museum of Washington. The main object is to learn the relationship between the Northern Stoupe Mountain sheep and the big-horn sheep of the main Rocky Mountain range. In addition, the explorers will collect specimens of various species of mountain sheep and of caribou for the museum.

Probably the members of the party are best known as members of the legal profession, but they have also established for themselves a notable reputation in scientific circles as explorers and big game hunters. Mr. Holworth is a former assistant district attorney and Mr. Davis is a former district attorney of Westchester county and has figured in several notable court battles. For the past four years, Mr. Holworth has been collecting specimens of sheep and caribou under special permit from the Canadian government and for the United States Biological Survey.

Most of the travel will be by pack train through hitherto untravelled mountain wilderness. The altitude being upward of ten thousand feet, snow storms will be encountered after September first. The route will be by Canadian National Railways to Prince George, B.C., thence by canoe up the Parsnip river to the head of the Peace river, where pack horses will be secured for the remainder of the trip.

The degree of doctor of divinity has been conferred by the University of Saskatchewan upon the Rev. S. M. Stewart, for many years missionary among the Eskimo of Ungava Bay.

The regular meeting of Greenhill Temple, Pythian Sisters, will be held on Friday, tomorrow night, but owing to other activities in town the usual social will be postponed for this occasion.

Mrs. T. J. Murphy and son Jim, of Bow Island, arrived this morning for a short visit with her mother, Mrs. W. Howe. She was accompanied by Miss Ruby Howe, who spent the summer holidays at Bow Island.

Considerable damage was done when a number of coal cars ran away on the Blairmore mine siding on Saturday afternoon last. Several cars jumped the track, while a couple of others were very much damaged by the impact.

The little eight-year-old son of Mr. and Mrs. George Christie died at Blairmore on Sunday last, following an accident sustained about a month ago when the little lad fell from a wagon. Funeral took place on Monday afternoon.

J. E. Smith, of Fernie, was on Saturday last fined \$400 and costs on a liquor charge at Cardston. Liquor to the value of \$1268 and the car were confiscated. The driver of the car, J. E. Smith, was formerly a resident of the Alberta foothills.

From five to six hundred Alberta horses are being purchased for shipment to Russia. These animals, weighing from 1000 to 1100 pounds, are rather light for the Alberta demand, but just what the Russian farmers want for work in their fields. Another four to six hundred are being picked up in Saskatchewan. Mr. J. W. Durno, of Calgary, is looking after the purchases in Alberta.

These seven-day governments at Ottawa are giving greenhorns a splendid opportunity to wet their feet. A master plumber is the kind who makes the charge for the time his helper takes to go back for the tools.

Eloquent

White Space

is the ADVERTISING space enterprising merchants use in "The Enterprise" to tell the good-folks of this community about their stores and their goods.

Good ADVERTISING is moving eloquence, too. It brings new customers to your store. It builds good will. It creates new business, moves goods and makes bigger profits possible.

ADVERTISING is a hardworking ally that should be co-operating with every merchant. Why not investigate its merits. Ask us about it.

PROGRESSIVE MERCHANTS ADVERTISE

Issued by Canadian Weekly Newspapers Association

\$5,000.00 IN CASH

For Readers of

The Blairmore Enterprise

and

The Family Herald and Weekly Star

of Montreal

Arrangements have been completed whereby The Blairmore Enterprise and The Family Herald and Weekly Star will conduct an interesting contest in which ninety-five cash prizes amounting to Five Thousand Dollars in all will be awarded.

The contest is simple and there are no strings on the prizes. Every reader has an equal chance. A general federal election will be held soon. At the last general election held on October 29, 1925, a total of 3,168,412 votes were polled. How many votes will be polled in the forthcoming election? Whoever estimates the correct or nearest to correct number with the first prize of \$2,500.00 according to the special offer made below.

Prize List—A Total of Five Thousand Dollars

To the subscriber who sends the correct or nearest to correct estimate—the sum of Two Thousand Five Hundred Dollars	\$2,500.00
To the subscriber who sends the second nearest to correct estimate—the sum of One Thousand Dollars	1,000.00
To the subscriber who sends the third nearest to correct estimate—the sum of Five Hundred Dollars	500.00
To the subscriber who sends the fourth nearest to correct estimate—the sum of Two Hundred Dollars	200.00
To the subscribers who send the next ten nearest correct estimates—Twenty Five Dollars each	250.00
To the subscribers who send the next twenty-five nearest correct estimates—Ten Dollars each	250.00
To the subscribers who send the next sixty nearest correct estimates—Five Dollars each	300.00

50 PRIZES IN ALL—A TOTAL OF \$5,000.00

HOW TO ENTER THIS GREAT CONTEST

The subscription price of Canada's greatest national weekly, The Family Herald and Weekly Star, is One Dollar a year. The subscription price of The Blairmore Enterprise is Two Dollars a year. We now offer a full year's subscription to

Both Papers for \$2.50

and each subscriber will be entitled to make TWO ESTIMATES in the Federal Election Contest. All subscription arrears due The Blairmore Enterprise must be paid up.

This contest is not a time-waster or a dollar-catcher. You get full value for your subscription and an opportunity to win a small fortune. The winner of the first prize in the last Election Contest was Mr. A. Williamson, of Prince Albert, Sask., who received \$2,500.00. Remember, there can be no juggling of figures, as the correct returns will be furnished by Government Officials after the contest has closed, and will be public property.

The contest will close before election day.

All orders and estimates for the above combination to be sent to

**WEST CANADIAN BAND
RENDERS FINE CONCERT**

The first of a series of concerts by the newly-formed West Canadian Collieries band was given in the band stand opposite the Cosmopolitan hotel on Thursday evening last and was much enjoyed by a large and attentive crowd of people, not only of Blairmore, but from Bellevue, Hillcrest, Coleman and other points.

This band, formerly known as the Bellevue band, has just recently been reorganized under the name of the West Canadian Collieries' Band, under the direct patronage of Mr. G. A. Vissac, general manager of the West Canadian Collieries, Limited; Mr. L. R. Robert, superintendent of Greenhill mine, Blairmore; and Mr. Noble McDonald, superintendent of the Bellevue mine, and other officials of the company who are taking an active part in the work and whose intention is to build up one of the best bands in Western Canada.

Its purpose is to serve the towns of Blairmore and Bellevue at all times. The personnel of the band is as follows: G. W. Goodwin, solo cornet; Bellevue, conductor; Robert Dickson, solo cornet, Blairmore; Seth Martin, solo cornet, Blairmore; Rene Steiner, first cornet, Blairmore; William Goodwin, first cornet, Bellevue; D. Gramenda, second cornet, Bellevue; W. Cousens, second cornet, Bellevue; W. Johnson, second cornet, Bellevue; A. Rhodes, solo horn, Bellevue; Bramwell Goodwin, first horn, Bellevue; Ed. Royle, solo baritone, Blairmore; Watts Goodwin, solo euphonium, Bellevue; Luther Goodwin, solo trombone, Bellevue; Charles Thompson, first trombone, Blairmore; W. Rhodes, E-flat bass, Blairmore; J. Coates, B. bass, Bellevue; James Cousens, bass drum, Bellevue; Cury Odge, side drums, Bellevue.

Several requests from outside points for the services of the band have been received, and they are to appear at Waterton Lakes on Sunday next and at Lethbridge on August the 22nd, but home engagements are to have first consideration at all.

In this band there are several who have played together for a number of years and who would be the mainstay of any band.

The band suffered a severe loss a few months ago in the death of Mr. Andrew Goodwin, trombone player.

As time goes on, the band will be further augmented in numbers and a splendid opportunity presents itself to a young and ambitious player to join.

TENNIS TOURNAMENT RESULTS

Following is a list of the winners in the Crow's Nest Pass tennis tournament, held at Coleman on July 1st:

Junior men's singles—N. Anderson.
Junior men's doubles—N. Anderson and T. Borg.

Junior ladies' singles—Miss B. Wallace.
Junior ladies' doubles—L. Kafoury and Helen Smith.

Men's senior singles—J. Rae.
Men's senior doubles—R. F. Barnes and J. A. McLeod.

Ladies' senior singles—Mrs. J. A. Kerr.

Ladies' senior doubles—Mrs. Cruickshank and Mrs. A. Rose.
Mixed senior doubles—R. F. Barnes and Mrs. W. Purvis.

A party of fourteen officials and geologists of the Marland Oil Company of the United States have arrived in the province and will make preliminary arrangements for an extensive search for oil fields in Alberta, in connection with the partnership which has been formed with the Hudson Bay Company, to develop possible oil fields on the lands of that company. The operations of the company will extend over a period of years and considerable development is likely to result.

The three hundred wapiti placed in Banff and Jasper national parks a few years ago have now increased to fifteen hundred.

**CORBIN WINS FROM
BLAIRMORE TENNIS CLUB**

On Sunday, August 1st, Corbin entertained Blairmore West End Club at tennis, in a C.N.P.L.A. fixture.

Eight matches were played, and as the result was then four all, an additional ladies' single was played to decide, which resulted in Corbin winning, thus giving them the match, five to four.

Some very close matches were played and there were no walk-aways.

Corbin opened rather disastrously, as the two matches played before lunch went to Blairmore.

Miss Marquis defeated Mrs. Hinck, 6-3, 6-2, after quite a close game; while McKenzie, of Corbin, after taking the first set from McDonald, 6-2, lost the next two and the match, 3-5, 2-6.

After a delightful lunch at the boarding house everyone felt better, and Grieve, of Corbin, defeated Glandfield in three sets, while Hinck took Hnatyshyn into camp, 6-2, 7-5, thus tying the score two each.

Miss Marquis and Hnatyshyn put up an awful battle against Mr. and Mrs. Hinck, winning the first set, 5-2, only to be nosed out, 7-5, 8-6, in the next two sets.

Glandfield and Miss Fraser won from Mrs. Almond and Grieve in two sets, and the score was again tied.

Mckenzie and Frey, of Corbin, had rather tough luck against McDonald and Wallace, as with each set, they were leading 5-3 and 40-15 in the third set, only to have their opponents tie the score and win out 7-5.

Hinck and Grieve then beat Hnatyshyn and Glandfield, 6-2, 4-6, 6-1, and the score went even again.

Corbin then took the deciding match, Mrs. Almond defeating Miss Fraser 6-3, 6-3, in a game which was closer than the score indicates.

After another meal at the board-

ing house, the Blairmore team left for home after a day of good close tennis, which was thoroughly enjoyed by visitors, home players and spectators.

Followings is the score:

Hinck won from Hnatyshyn, 6-2, 7-5.

Grieve won from Glandfield, 6-3, 4-6, 6-3.

Mckenzie lost to McDonald, 6-2, 3-6, 2-6.

Mrs. Hinck lost to Miss Marquis, 3-6, 7-5, 2-6.

Mrs. Almond won from Miss Fraser, 6-3, 6-3.

Mr. and Mrs. Hinck won from Miss Marquis and Hnatyshyn, 2-6, 7-5, 3-6.

Mrs. Almond and Grieve lost to Miss Fraser and Glandfield, 5-7, 4-6.

Grieve and Hinck won from Hnatyshyn and Glandfield, 6-2, 4-6, 6-1.

Mckenzie and Frey lost to McDonald and Wallace, 6-2, 4-6, 5-7.

Final result—Corbin, 5 matches; Blairmore, 4 matches.

Another big batch of sale bills were turned out in The Enterprise office on Tuesday of this week for Mrs. H. E. Gate, of Coleman, who announces that her clearing sale, which started on Thursday last, has been a huge success. On the opening day the store was packed to the doors with bargain seekers and all departed satisfied with their purchases. This week some special offerings are being quoted and Mr. Gianses, the sales manager, has added several new clerks in order to facilitate the handling of the crowds.

Four Coleman boys were brought before Magistrate Gresham last week, charged with throwing stones at the tents in the tourist camp there and using profane language. They were fined \$5.00 each and costs, or in default one month, and six months' suspended sentence.

The series of concerts recently staged throughout this district by the Winnipeg Ukrainian Girls were well attended and very much appreciated and enjoyed.

The West Canadian Band gave their first concert for the season at the Victoria Street bandstand on Thursday evening last, and proved themselves highly accomplished.

WORLD HAPPENINGS
BRIEFLY TOLD

The man in Reading, England, whose radio loud speaker can be heard by his neighbors will be liable to a fine of \$25.00.

Captain Postelcu, a Rumanian officer, faces trial by a special court martial because he slapped William S. Culbertson, American minister to Rumania.

Samuel Scott, a pioneer of the west who for many years was associated with the agricultural interests of the country and was a prominent member of the Winnipeg Grain Exchange, is dead.

Ratepayers of Vancouver will vote some time next October on the \$1,000,000 bylaw for carrying out the proposed civic centre scheme. The greater part of the money will be required for expropriation of private property.

Two noted Canadians who had been already appointed, jury councillors, have been sworn in at the jury court held by His Majesty. They were Hon. Francis Anglin, chief justice of Canada and Rt. Hon. George Perry Graham.

Dick Quillington, reported to be 104 years of age and the oldest Indian in British Columbia, died suddenly at his home on the Esquimalt reserve.

Robert Alexander Baker, well-known advertising man and president of the Baker Advertising Agency, Toronto, is dead.

Twenty-nine persons are dead and four are blind from poison liquor in Buffalo and nearby New York and Eastern Canadian cities. Thirteen more died at Lockport. The other thirteen died in cities on the Ontario peninsula.

An increase of \$11,114,434.69 or 296.99 per cent. in the net earnings for the first six months of 1926 as compared with the same period last year is shown in the financial statement of the Canadian National Railway for the period January 1 to June 30, 1926.

Recent dismissal of colored waiters from the Canadian National Railway dining car service was the subject of a protest at a meeting held in Toronto under the joint auspices of the United Negro Improvement Association and the Canadian League for the Advancement of Colored People.

Gandhi Would Reform India

Tells What Measures He Would Take If He Were Emperor.

"If I were Emperor of India," Mahatma Gandhi, the great Indian Nationalist leader, states, "I would prohibit the importation of intoxicating liquors and close down every distillery; I would summon the representatives of both Hindus and Mohammedans to search their pockets and deprive them of all estates and weapons, and then lock them together in one room and open it only after they had settled their quarrels."

"I would extend the hand of fellowship to the whole world, irrespective of caste, color or creed; I would disband the entire army of occupation in India, retaining only enough police to protect the citizens; I would guarantee full protection to every European as well as all honest European enterprises; I would guarantee protection to all forms of religious worship, except that which is repugnant to the conscience of mankind; I would not bribe the frontier tribes as they are now being bribed, but would cultivate their friendship, and I would impose a prohibitive tariff on all foreign cloth."

Hearts Of Oak

British People Never Stood Higher In Respect and Confidence of the World

The British as a political people never stood higher in the respect and confidence of the world, than they are now. They are not only a rock through the storm and trouble crowding upon them, but home and foreign and imperial affairs, there would be no hope of stability in Europe, and none of avoiding anarchy in Asia. In that sense we are the keystone of a crumbling arch, and if we fall the whole wide structure of the old world would crash. In the eighth year the Armistice we are still holding firm, despite anxieties, disappointments, crises, not even coming one at a time, but often besetting us from all quarters together in a way that might have worn out the heart and fibre of a less solid breed.—J. L. Garvin, in London Observer.

Manitoba Dairy Industry

Growth in Recent Years Has Been Phenomenal.
The growth of the dairy industry in Manitoba was recently summed up by

L. A. Gibson, dairy commissioner for the province. In 1912, according to his statement, between 50 and 60 carloads of butter were shipped into Scotland from Ontario and Quebec. In 1913 imports were 38 carloads and in 1914, 20 carloads. In 1915 Manitoba produced enough butter to meet market requirements and also shipped out of the province 50 carloads. This has been increasing each year until in 1925 the province had exported over 325 carloads valued at 2,500,000.

Activity in Building

Encouraging State of Conditions in Canada Generally.
Building was never more active in Winnipeg than it is at present. For the first six months of this year the total value of the building permits was \$4,300,000 compared with a total of \$3,412,940 for the similar period in 1925.

This activity in building in Winnipeg and also in many other places throughout Canada is indicative of the encouraging state of conditions generally in the Dominion. With the prospects for another good grain harvest this year, farmers and business men in Canada are feeling optimistic.

Women Enter Legal Profession

Six more women have been called to the bar in London, indicating that an increasing number of them are taking up the legal profession as a means of livelihood. Among the latest to do the "vic" and "swe" of the English bar are the Hon. Ruth Buckley, daughter of Lord Buckley, a lord of the appeal, and Miss Beng Hong Lim, of Penang, Straits Settlements. Miss Beng is the second Oriental woman to be called to the bar. Her brother, Kayi Beng Lim, also has been admitted to the practice.

British Use Dollar Sign

Dollar signs on goods have appeared for the first time in the shopping districts of London frequented by American tourists. The marks, quite evidently, are London made, as they are very much of the perpendicular variety, and lack the original Yankee twist.

Caracal lambs are killed when they are only a few days old, before the curl of their fur loosens, in order to produce Persian lamb and Astrakhan fur.

Pullman porters measure time the same way that amateur anglers fish—from tip to tip.

IDEAL
Fashions—3

A Sports Frock of Practical Design

Fashion tells us that sports frocks have assumed a predominant place in the wardrobe, their simple and practical line fittings in perfectly with the requirements of our active, every-day lives. The discriminating woman might well choose the two-piece model pictured here for its simple becoming lines. The blouse slips on over the head, and has a plain collar to be worn high or low. There are a few garters at each side over the hips, and the long set-in sleeves are finished with tailored cuffs to the line of polished crepe la wane under the collar, the loose ends passing through two broad buttonholes. The bodice and skirt has a cluster of plaits in the centre front, the back being plain. The blouse No. 1035 is in sizes 34, 36, 38, 40 and 42 inches bust. Size 36 requires 2 1/2 yards 27-inch bordered material as illustrated. The skirt No. 1194 is in sizes 26, 28, 30, 32 and 34 inches waist. Size 32 waist requires 2 yards 27-inch bordered material. Match blouse, with 3/4 yard fabric for bodice top. Price 20 cents each pattern.

Our Fashion Book, illustrating the newest and most practical styles, will be of interest to every home dressmaker. Price of the book 10 cents the copy.

Telephones in Canada

Now Takes Second Place Among Countries of the World.
According to recent statistics, Canada, with 11.6 telephones to every hundred of her population (takes second place among the countries of the world to the United States which has 14.2 telephones to every hundred people. Following come Denmark, 9; New Zealand, 8.7; Sweden, 6.9; and Norway, 6.1. In Great Britain there are only 2.8 phones to each hundred of the population and in France 1.7.

Lincoln's Son Is Dead.
Robert T. Lincoln, only surviving son of President Abraham Lincoln, was found dead in bed at his summer home in Vermont. Mr. Lincoln, who had served as secretary of war, minister to Great Britain and for years president of the Pullman Company, had been feeble in health. He was 83 years old.

Reunited After Twenty-One Years

A most interesting reunion which took place on the Cunard liner Arcañ, docked at Quebec last week, was when Mr. Harold Taylor, well-known buyer for the C.N.R. in Winnipeg came aboard and met his mother, who was one of the passengers. Mrs. Taylor had not seen her son for 21 years. In the picture above Mr. Taylor is shown on the left, while on the mother's left is her grandson, whom she had never seen.

Survey Of Unoccupied Land

Manitoba Government Taking Agricultural Survey of the Province

The Manitoba Government has commenced an agricultural survey of unoccupied lands in the province which when completed will provide the incoming settler with all available information on such lands. A total of 4,774 homesteads have been taken up in Western Canada this year. In addition 427 families, consisting of 3,133 persons have come to the western provinces under the government settlement scheme. The Canada Colonization Association has placed 648 families on 150,545 acres of land in the past year. All post-war immigration records were broken recently when 1,681 immigrants passed through Winnipeg in forty-eight hours.

To Manufacture Automobiles

Engineering Firms in Australia Endeavor to Establish Industry

Four large engineering and electrical equipment manufacturing firms in New South Wales are planning to form a company capitalized at \$1,000,000, to produce Australian-made motor cars. They intend to build a six-cylinder type car suited for Australian conditions, and apply in its manufacture the mass production system. Representatives of these firms have approached the Australian Government with a suggestion of a subsidy to aid the new industry. The minister of trade and customs promised that any reasonable recommendations would be sympathetically considered by the cabinet. Australia is the largest importer of U. S. automobiles.

Frenchman Invents
Bicycle That Flies

Machine Can Be Transformed Into a Small Monoplane

A young French mechanic in a factory at Dijon has just invented a bicycle that flies.

According to a report received in Paris the Frenchman had been working on his invention several years and has finally completed successful tests. The bicycle can immediately be transformed into a small monoplane and fly to a height of 150 feet. Trials were conducted without mishap and the mechanic intends to present his invention to the public.

The successful manufacture of the bicycle in large quantities will make

flying within the means of all, in the opinion of the inventor.

Rare Paintings Stolen

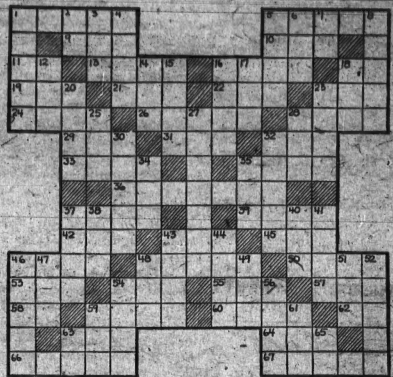

Merchant Plunders Castles in France by Ingenious Method

Valuable old masters for eventual American collectors of rare paintings found their way into the Paris antiquity market, by a trick which has placed the dealer behind the bars. The French merchant, who is a highly specialized antiquity taker and an artist of some ability made copies of the paintings in private galleries. After carefully studying the copy, he calmly carried away the original work of art and left his unsuspecting hanging in its place. He never worked around Paris, and was careful to select distant castles in the country where experts would not be likely to patrol.

Celebrated Russian Church in Danger

The cathedral of St. Isaac, the largest and finest church in Russia, has developed serious fissures in the great granite masonry columns. Built upon submerged wooden piles, as most of the buildings in Leningrad, the magnificent edifice, which cost \$15,000,000 to build, has been steadily subsiding. Great perpendicular cracks have appeared in one column between Alexander Park and the palace. Unless it is supported, it is threatened with collapse.

SUNDAY SCHOOL LESSON

AUGUST 8

THE GIVING OF THE MANNA

Golden Text: Jesus said unto them, I am the bread of life. John 6:35.
Lesson: Exodus 16:1-34

Explanations and Comments

1. The People Complain of Lack of Food, verses 1-3. This is the third recorded "murmuring," see the History of the People. "Would that we had died by the hand of Jehovah in the land of Egypt," the people cried, "when we sat by the flesh-pots, when we did eat bread to the full."

They remember the flesh-pots, but not the affliction. Human nature does not change. Murmurers will have short memories. The spectacles of regret, mainly past meanings and badward past sufferings.

The Israelites even accused Moses of having brought them, forbidden the wilderness to kill them all with hunger!

It is worthy of remark that those who are the most unworthy of liberty are wont to behave most ungratefully toward their benefactors. "Would that we had died by the hand of Jehovah in the land of Egypt," the people cried, "when we sat by the flesh-pots, when we did eat bread to the full."

If food is promised, verses 4-12. And Jehovah spake unto Moses, saying, Behold, I will do as thou sayest. The children of Israel: speak unto them, saying, At even ye shall eat flesh, and in the morning ye shall be filled with bread; and ye shall know that I am Jehovah your God—ye shall know that I am Jehovah your God.

With kindness, as if made by irresponsible children; but toward the end of their journeyings such complaints are severely punished, for after so many years' experience of God's providence, something better was expected from them.

Auxiliary Lungs

Artificial Lungs Provide Air Pilots With Oxygen For High Altitudes.
Auxiliary lungs enabling airmen to reach unprecedented heights, are said to have been perfected by a French chemist, M. Gervais. The Academy of Sciences regards the invention as one of the most important to the science of aviation in recent years. Artificial lungs, adjusted to a respiration, provide pilots with increasing amount of oxygen as the plane climbs. Experiments have shown that a pilot can stand minimized air pressure corresponding to a climb of 50,000 feet, hitherto unattainable by man.

Potatoes For California

Arrangements for the export of large quantities of British Columbia seed potatoes to California are being made this year by a potato grower of that state. The British Columbia potatoes are desired in California for seed purposes because they introduced new strength into the southern strain. Experiments were made with Canadian grown seed last year in California, and growers were well satisfied with the results.

Building Bigger Airships

Gigantic Airship Hangar at Cardington Has to Be Enlarged.
British airships of the future are to be so much bigger than was thought some months ago that the gigantic airship hangar at Cardington had to be reconstructed. It was originally planned to be 700 feet long and 144 feet high and capable of housing two airships of the R-38 class, but it now measures 312 feet long and 190 feet high, says the Modern Transport, and will house one airship of the R-101 class.

A mooring mast has been erected with a pump capable of lifting 2,000 gallons of fuel oil an hour to airships.

Growth Of Saskatchewan

435,530,000 Bushels of Grain Produced in Province Last Year

When Saskatchewan became a province, twenty-one years ago, there were almost 60,000 farms with a little over 2,000,000 acres farmed, according to the provincial minister of agriculture. In 1925 the yield of grain was under 60,000,000 bushels, while in 1925 it was 435,530,000 bushels. In the period the wheat production increased from 34,742,000 to 240,513,000, and was 57 per cent. of the wheat grown in the Dominion in 1925, an increase of 161 per cent. growth in 1925.

Saving Money

Conditions are evidently good in Alberta for as much money has been invested in Alberta Government savings certificates up to the end of June this year as for the whole of 1925. The figures for last year, covering the entire twelve months, were \$1,119,116, and to the end of June this year, \$1,198,168 had been accounted for. Since July came in, the sales of certificates have brought the total for the year thus far well up to that of the year preceding, with five months' business still to come in.

Holstein Cattle For Japan

Twenty-two pure-bred Holstein cattle collected in various parts of British Columbia have left Victoria for Japan, consigned to breeders' associations in five different parts of that country.

The man who poses as a lion in society is usually a bear at home.

Strange, Romantic Love Adventures of the Flapper you know!

Joanna
by H.L. GATES
Copyright 1925 by H.L. GATES
Published by arrangement with First National Pictures, Inc.

CHAPTER X.—(Continued).

Joanna looked up at him. "Funny thing, I look forward to golden weddings, aren't they?" he hinted, looking down at her quizzically.

"Funny you now, getting through the marrying stages fast enough to leave time for an anniversary like that!"

"Oh, I shan't be so quick to get married that I'll be likely to change my mind," Joanna retorted.

"Now that's a sensible resolve," Kenneth agreed. She felt his arm tightening a bit. He was holding her closer than Brandon had, almost as close as her own dancing boys customarily did. She began to wonder much about him. She had thought him old, much too old, but he danced

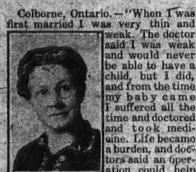

with her and talked to her on the level of easy youth. She had observed earlier in the evening that most of the men around the tables appeared to be much older than their women. But she reflected they seemed to be men who had a place in life and so were more worthwhile than inconsequential younger men. And she rather liked the change. Her companion was still talking to her as he swung her daffily in and out among the dancers on the well crowded floor.

"An exquisite flower like you, you and your happy kind—is much more attractive when you're not set on being exclusively worn in one tight lapel. I shouldn't say half the things I really mean if I thought you'd be adding them up into a matrimonial sum. You'll find life is all too short for that sort of thing."

Joanna looked at him queerly. "I ought to say something to you," she announced, "but I'm not sure just what. I'll probably come to me in

AVOIDED AN OPERATION

Mrs. Dayman Gives Lydia E. Pinkham's Vegetable Compound the Credit

Colborne, Ontario.—"When I was first married I was very thin and weak. The doctor said I was anemic and would never be able to have a child, but I did, and from the time my baby came the chaffered all the time and doctor and took medicine. Life became a burden, and doctors said an operation could help me. My husband was opposed to that. I had seen Lydia E. Pinkham's medicine advertised, so I bought a box. I took a bottle of it and I thought I would try it, that might get some relief."

I had not taken one bottle when I could feel it helping me. I took five bottles and had better health. Now I have three girls and a boy and have done my work up to confinement. Mrs. Susan Dayman, R. R. No. 9, Colborne, Ontario.
Sold by druggists everywhere.

W. N. U. 1648

still. And just now you are the stake. I'm going to play for you, too."

CHAPTER XI.

Joanna is invited to Yvonne's.

The flush that deepened the hue of Joanna's cheeks, and the wrinkle in her brow, did not escape Yvonne when Kenneth and the girl returned to the table. Brandon, too, saw, and divided a quick glance between the girl and the man who had been dancing with her. Yvonne, in her fluttering wither, touched the girl's hand.

"He's been making love to you! I knew it. Was I right? Didn't he begin with your eyes?"

Joanna's frown vanished. In the sheer joy of her closeness to the woman whose exotic beauty and fascinating adventures in a world of hectic romance had made her a celebrity, her trouble over the mystery which confronted her in each new association was quickly dismissed away.

"Am I supposed to tell?" she parried, appealing to Kenneth, who was unconsciously lighting a gold-tipped cigarette. He answered easily:

"Some day, my dear, you will wear your lover like medals on your breast, for your friends to estimate and your rivals to envy. You may as well begin now. I make my confession. I promised to overwhelm you with my adorations. But you must assure the company that I did not begin by paying you compliments."

"I have heard," Brandon remarked, "that Roddy never compliments a woman. A dozen of his victims have assured me that he declares his love first and then tells them why. His reasons are, therefore, accepted as plain rational statements of fact, and not flatteries. A woman doesn't place what is said of her by a man who is in love with her, as flattery. She believes it to be a just inventory of her perfections."

"Clever that!" Yvonne declared. "It proves what I've always contended—that a man ought to have a style of his own. It's positively tiresome to listen to most men go sentimental."

"What weary hours you must spend!" Kenneth exclaimed. "I promise you complete relaxation if you will take a turn on the floor with me. Miss Manners, here, is dying to ask Brandon what sort of a chap I am, and to ask him who you're planning to marry next."

"A cocktail, first," she demanded. A waiter, to whom Kenneth had entrusted a pair of silver flasks, responded to his signal. Joanna had refused

a previous offering and had not been pressed. This time Brandon quickly reached across the table and turned up her glass.

"When Yvonne, with a nod to her, had moved away for her dance with Kenneth, Joanna turned to Brandon eagerly.

"He seemed to read just what I was thinking," she said. "Tell me about him—and Yvonne, too. I never dreamed that some day I would know her. You see she has been one of those interesting people we talk about just to prove that we keep up with the news."

(To be continued.)

Mothers Value This Oil—Mothers who know how suddenly crop may seize their children and how necessary prompt action is in applying relief, always keep at hand a supply of Dr. Thomas' Electric Oil, because experience has taught them that this is an excellent preparation for the treatment of all ailments. And they are wise for in various uses, under it a valuable medicine.

Bar U. S. Jazz Leader.

Premier Baldwin's policy of safeguarding home industries, it is authoritatively stated, is behind the exclusion from England of Ben Bernie, jazz orchestra leader from the United States, who has been denied a permit for an eight weeks' engagement.

Did you ever see an office holder who had a retiring disposition?

Relieve Irritations By Using Cuticura

"Treat the affected parts freely with Cuticura Soap and hot water, without rubbing, then apply Cuticura Ointment. For eczema, itching, eruptions, irritations, etc., they are wonderful. Use Cuticura Soap daily to keep your skin clear."

Small box 25c. Large box 50c. Cuticura Soap 25c. Cuticura Ointment 25c.

Edison Dislikes Painted Portraits

Believes Pictures Not Good Unless Mechanism is Used

Thomas A. Edison's love of machinery is displayed even in his attitude toward pictures of himself. Sir John Lavery, the English portrait painter, who spent several weeks in the United States painting Pittsburgh millmen and other persons, has told of how he tried to persuade the famous inventor to pose for a portrait, after the artist had painted one of Mr. Edison.

Sir John said Mr. Edison refused, asserting he was opposed to painted portraits because they were made without the aid of mechanism and therefore could not be "really very good."

"Everything in this world should be done by machinery and mechanism," Sir John quoted the electrical wizard as saying.

The Death of Wolfe

Discussion Has Arisen Over Authenticity of Painting at Oxford Museum

Canadian readers will be interested in the fact that a distinguished artillery officer has been telling me, that the picture of the death of Wolfe, painted by Edward Penny in the Annals Museum of Oxford, is incorrect. Whereas a copy of it in the Royal United States Services Institution is accurate. In the original the surgeon's mate is shown in mitre, and in the copy in uniform. Again, the original does not show us Wolfe's friend, Holland, who was present at his death, whereas the copy does. I wonder if any of my readers can throw light upon this problem?—London Graphic.

Seals Sink Boat

Power Launch Sinks When Fifteen Seals Climb Aboard

Seals looking for a place to sun themselves are playing havoc with small boats off Santa Monica, Cal.

Attracted to the bay in unusually large numbers by good fishing, the seals have failed to find rocky upon which to sun and so have taken to the small craft anchored a short distance offshore.

A 22-foot power launch sank after fifteen of the animals, many of them weighing more than a human child, were on board. Two other vessels were almost sunk before the seals were driven away.

Miller's Worm Powders are a pleasant medicine for worm-infested children, and they will take it without objection. When directions are followed it will not injure the most delicate child, as there is nothing of any injurious nature in its composition. They will speedily rid a child of worms and restore the health of the little sufferers whose vitality has become impaired by the attacks of those intestinal pests.

Large Appetites

Average Person Consumes One Thousand Pounds of Food in A Year

Averaging the small and large eater, it requires 1,000 pounds of food per person to maintain him a year. The average person will eat in that time 120 pounds of meat and fish, 378 pounds of breadstuffs, a similar amount of potatoes, vegetables and fruits and some 20 pounds of butter and cheese. There are some 1,600,000,000 people in the world and 160,000,000 of them produce the food for the entire number.

It testifies for itself—Dr. Thomas' Electric Oil needs no testimonial of its powers other than itself. Whoever cries fit for coughs or colds, for cuts or contusions, for sprains or burns, for pains in the limbs or body, well know that the medicine proves itself and needs no guarantee. This shows why this Oil is in general use.

Sheep could be produced for fourpence in England in the 14th century.

Minard's Liniment for Insect bites

Polish Engineering Project

Hope to Unite Black and Baltic Seas Through the Rivers of Poland.
A special League of Nations committee, on which there are several engineers, including an American, Mr. Laza, is to investigate the possibility of uniting the Black and Baltic seas through the rivers of Poland.

"The Poles are hopeful that Great Britain will finance such a project which will necessitate the construction of several canals, so that Polish coal may be shipped southward and no longer compete with England for the northern markets."

Polish coal has been making heavy inroads in those centres, in view of the British coal strike.

Brings Substantial Income

Missouri Woman Makes Good Living Selling Butterflies

Income from the sale of moths and butterflies has helped Mrs. Edith H. DeCoster, of Buckfield, Missouri, to educate her three daughters and take a year's vacation in California.

It began with the finding of a caterpillar in the garden by her daughter. "Make bread thy charity," she has sold tens of thousands of moths, butterflies and cocoons to teachers and naturalists.

Little Helps For This Week

But why dost thou judge thy brother?—Rom. xiv, 10.
The glance that doth thy neighbor doubt.

Turn thou, O man, within,
And see if it will not bring out
Some unsuspected sin.
To hide from shame the branded brow,
"Make broad thy charity."
And judge no man except as thou.
Wouldst have him judge of thee?—Alfred Carver.

Such as everyone is inwardly, so he judgeth outwardly.—Thomas A. Kempis.

What man can judge his neighbor aright, save he whose love makes him refuse to judge him?—George MacDonald.

WOMEN OF MIDDLE AGE

Need Rich, Red Blood to Maintain Good Health

After passing the age of forty every woman has reason to grow anxious about her health. This time of life is a time of transition, a time of change, a time of adjustment. The body is no longer as strong as it once was, and the mind is no longer as active. The woman of middle age must learn to live with these changes and to maintain her health and vitality.

The very best help for any woman of middle age is the health help given by Dr. Williams' Pink Pills. These pills reinforce the blood supply, enriching and purifying it. In doing this they nourish the starved and overtaxed nerves and give new strength and vitality to the whole system. By this natural process Dr. Williams' Pink Pills completely dispel all pains and weakness, and a better, happier condition of health and spirits arises.

Every woman of middle age should take advantage now of the wonderful health help of Dr. Williams' Pink Pills. They are sold by all medicine dealers or will be sent by mail at 50 cents per box. Write to Dr. Williams' Medicine Co., Brockville, Ont.

Contemplates Commercial Career

Ex-King George of Greece May Enter Trade

Ex-King George of Greece, and with his wife is now visiting London, is said to be contemplating a commercial career.

When he was forced to abdicate a few years ago by the Greek revolutionists he was promised an annuity which has not been forthcoming.

The ex-queen is a daughter of the Queen of Rumania. The ex-king was educated in England.

Don't forget

To put Keen's Mustard on your list for Camp or Summer Home. Then you can have real Mustard with your bacon, fish, meats, sandwiches, etc.

Borden's ST. CHARLES
EVAPORATED MILK

More milk means better health. Have it handy and use it in cooking.

Use it wherever the recipe calls for milk.

University of Saskatchewan

1,977 Students Enrolled At University During Past Year

The total enrolment at the University of Saskatchewan in the past year was 1,977, an increase of over 20 per cent, as compared with the previous year, whilst the extension department reached over 20,000 persons, an increase of over 40 per cent. This year approximately 110 degrees will be conferred and 20 certificates granted to those who have completed courses in agriculture and pharmacy. This brings the total number of degrees which have been conferred since 1913 up to 1,008 and of certificates 456, a notable record for the first fifteen years of the university's history.

Minard's Liniment for Dandruff

Largest Skycraper

The tallest skyscraper in the world, to be erected in Rome as a monument to the Fascist regime, is the project of an Italian-Argentine architect. He was recently given a private audience with the pope, who was especially interested in the plan to place a church at the top of the great building, 600 feet above the street.

CORMO'S

Removes the hard flesh and applies Minard's freely and often. Also spreads for bunions.
